

Are Children Allowed in Pirates Destiny?

According to Linden Labs policy "child avatars" are allowed on adult regions, under the following restrictions.

- 1) All child avatars must be played by 18+ typists in the real world. They must be age verified.
- 2) Child Avatars must not engage in sexual age play.
- 3) Child avatars may not be in proximity to adult situations, including sex furniture. For PD proximity is defined at 20 meters or closer (chat range) or blocked by a physical barrier such as a wall.
- 4) Child avatar nudity of the genital or chest regions, including in otherwise non-sexual situations is strictly forbidden. These regions must be alphed even when covered.
- 5) Adults are forbidden to force children into adult situations (exposing their genitalia to a child avatar for example)

Any avatar in caught in violation of any of these policies, will be immediately banned along with any adult avatar involved. Infractions will be reported to L-Labs.
