

Cheese Making Tutorial

Ingredients Required

- 2 Jugs of Milk
- 3 Rennet **
- 3 Bees Wax

This will allow you to make 3 wheels of cheese

1. Put your milk and rennet beside the Curd maker.
2. Right click the handle then select Make Curd
3. Left click the handle and select Load
4. After the milk and rennet have loaded, click the handle again and select Make.
5. When finished you'll be given 3 buckets of curd.
6. Place one bucket of curd and 1 beeswax by the Cheese Press and repeat the same process as with Curd maker.
7. When done you'll receive your wheel of Cheese

** Rennet: To get rennet you need to slaughter a calf before it is 4 days old.
