

Farming Tutorial

Farming Tutorial (Plants)

IMPORTANT NOTES:

we have different kinds of plants. Potatoes, Tomatoes, Hay, Corn, Coffee, Rice and Tobacco. every plant gets the same care.

the farming system is only for tenant or sub-tenant of our estate.

make sure you wear the PDC hud (should be in IC mode) .

stealing is not allowed, only in an rp when the farmer is also present.

you need for harvest hay and rice a scythe,

needed also a Rake for fertilize all fields.

Following is a step by step guide to farming:

STEPS

1. make sure you wear the PDC hud (should be in IC mode) and your rake
2. rez the fertilizer stay in front of your field and click it, you will get a menu, click „Fertilizer“ get an info in openchat
3. sit on the field and it will automatically take the fertilizer, after searching. your avatar starts working, wait until the animation stops. your field will show it has received fertilizer now
4. take off the rake and rez the seed of your choice
5. click the field again and sit on it, click again and you will get a menu, click „Plant“ get an info in openchat
6. now it looks for the seed and automatically takes it when your animation starts. wait until the animation stops.
7. now you only need a barrel of water rez. and daily pay attention that there is always enough water there, or it will stop growing

After few days (4 appx)

yayay your field is ripe and you can get your harvest

1. make sure you wear the PDC hud (should be in IC mode)
2. wear a scythe for harvest hay and/or rice
3. click the plant and sit on it, touch again the plant and you will automatically start an animation until the field is harvested
4. as soon as the harvest is finished, a small window will open and you will receive a basket of your harvest and new seed

Farming Tutorial (Animals)

IMPORTANT NOTES:

we have different kinds of animals. Pigs, Goats, Cows, Chickens.

the farming system is only for tenant or sub-tenant of our estate.

make sure you wear the PDC hud (should be in IC mode) .

stealing is not allowed, only in an rp when the farmer is also present.

female Cows give milk, Goats give milk and wool.

male Pigs and Cows will give fertilizer once a day.

Chickens will give eggs.

and of course you will get meat from all the animals, if they die or you slaughter them.

Following is a step by step guide to farming Animals:

STEPS

1. after receiving a couple (male and female) you get also feed and water trough

2. make sure you have a water barrel, as well as feed:

pig feed needs cooked rice

and one bucket of water

cow feed need hay

chicken feed need corn

Goat feed need hay

3. when you see your feed and water trough is with the percent down, rez a water barrel and feed in near and touch the respective troughs, it will fill up automatically then

4. to receive fertilizer, click on the animal and it will open a menu

5. after 8 days the female will be pregnant. to get the newborn, click on the animal and it will open a menu

6. after you got it, wait for the call in the open chat. it will tell when the new animal to rez, rez it near the mom

7. check your animals several times a day for food and water, or they will die
