

# Making Cooking Pots

**Making Cook Pots: To make cook pots, you need Copper Ingots, as follows:**

- Fish Pot: 3 Copper ingots
- Hunter's Pot: 2 Copper Ingots
- Meat Pot: 4 Copper Ingots
- Frying Pan: 3 Copper ingots
- Native Cook Pot: 4 Copper Ingots
- Coffee Pot: 5 Copper ingots

1. Go to the Cook Pot making anvil. If you don't know where that is, then look at the Nassau map.

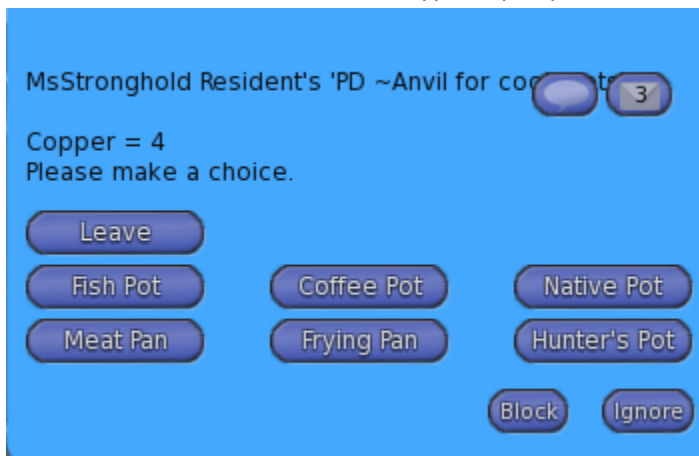

2. Click and work at the anvil and rez your copper Ingots:

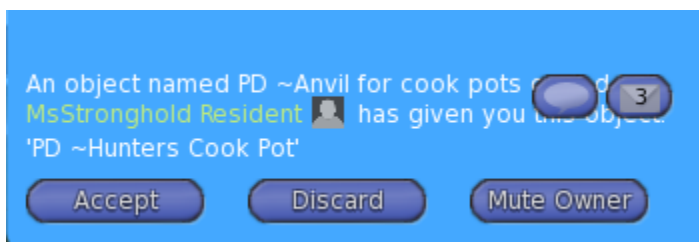

# Making Cooking Pots

3. Click the anvil and load your ingots. When loaded, the following message will appear: *"PD ~Anvil for cook pots whispers: All legitimate ingrediants loaded. Touch the table for the menu."*
4. Now click the anvil and select the type of pot you want to make. I am selecting the Hunters pot.

5. Once you have enough ingots, and select the pot you want, you get the accept/dismiss menu

6. Each type of cook pots can only cook certain foods. The Hunter's cook pot I made can only be used to cook, Turkey, Rabbits, Squirrels, parrot, and kabobs. To see what ingredients you need to cook something, go get the Cooking Recipes Tutorial.
