

Ship Building in Pirates Destiny

You can build PD Ships at the shipyard by Samwise. You have to provide the materials needed, when you build the ship and then to keep it being maintained you need more items. You collect what you need and give them to Samwise.

When the ship is newly built, you can use it in 180 days before it needs to be maintained by the shipyard. Maintenance prolongs the use 59 days.

Note that Samwise does not care about who loaded the material, so do not leave it in his custody because he will use it to the next builder or the next ship to be maintained and he will only explain what is missing to make the intended operation.

To build a Rowboat you need these materials:

- 1 Brass Ingot
- 5 Iron Ingot
- 10 Lumber
- Note: When you complete the rowboat, rez it and copy 1 to your inventory for everyday use, then transfer to the lifeboat in other ships.
- 10 Nails
- 1 Rope
- 2 steel
